Education

- * All children are provided with a program consisting of the following: language development, music, art and sensory perception. Children are naturally curious, we believe that the best way to nourish their desire for finding answers is to make learning fun. So when you look around our center, you will see an activity focused environment that tickles your child's curiosity and intellect. An environment that encourages children to learn by doing many different activities such as: block centers teaches sizes and weight concepts, art expands their imagination and sense of pride, outside play will build coordination, social skills and self confidence, and as they complete each activity they will smile, laugh, and most all: they will learn!

All parents are encouraged to participate in their child's learning. Feel free to ask questions, give suggestion; and to speak to the Director at any time. "ACWLA II" is your child's home away from home.

- * A suggestion box is located outside the office door
- * Parent volunteers are always welcomed. We ask that before you plan on spending time with us you fill out a volunteer form and a background check must be conducted.

When a Child Misbehaves in Our School

- ❑ Each class has class rules. The teacher goes over the class rules every day. When a child breaks a rule, he is reminded about the rule and the reason for the rule.
- ❑ If negative action continues we will remove the child from the group. The thinking chair will apply (depending on the age) for no more than one minute per age #.
- ❑ (ex: 2 yr old = 2 min, 3 year =3 min)
- ❑ If it continues further, we will take privileges away and if necessary we will speak to the child's parents. We will do this together with the child, so that the child's parents become aware of a possible problem and at the same time to show the child that his actions are a concern to those who care for him and that there is a consistency between home and school.
- ❑ A plan of improvement will be created.
- ❑ If the problem continues and the child shows no intentions to change, we will have a conference with the parent and the child. At this time the child could be suspended from one to three days, depending on how severe the problem is. If it continues, we will have no other alternative than to ask the parent to remove the child from our academy.

Please remember, together we stand strong and we will build a solid foundation for our children: "For our children are the future".

By signing below you are acknowledging our disciplinary plan and agree to help your child abide by the rules.
